

INSTRUCTIONS

Please take a moment to read through the instructions before you start. We have a couple of aprons hanging on the wall, pop one on to keep yourself dry.

1. Secure your dog(s) in the bath using the attachments provided.

2. Choose the shampoo you would like to use and turn the dial to your selection. We have a choice of 2. If you have vet prescribed shampoo we suggest you use that.

HYPOALLERGENIC SHAMPOO - use this if your dog has sensitive skin.

SHAMPOO - This is a general high quality which is used for normal skin types.

3. Now you are ready it's time to add funds to the machine totalling £10.00 - this will give you 10 minutes to wash and dry your dog.

4. Remove the hose and gun from the holder and let's start. you can select what type of water stream you and your dog prefer by turning the end, just like a normal garden hose then press the button on the handle to start the water.

5. The shampoo will flow out with the water and penetrate the coat... give your dog a good wash all over.

6. Now its time to rinse, turn the dial to **RINSE** and make sure you get all of the shampoo out of their coat.

7. If you would like to condition their coat then turn the dial to **CONDITION RINSE** and let the conditioner wash over your pets coat

8. If you conditioned, it's time to rinse again, turn the dial to **RINSE** and make sure you get all of the conditioner out of their coat.

9. Once you are happy their coat is well rinsed, press the button to stop the water and pop the hose back on the holder.

10. Time to dry, give them a quick rub down with your towel to get some of the water off then select **BLOW DRY HI OR BLOW DRY LOW**

If your dog doesn't like the hair dryer you are best to start it off on Blow dry lo. start drying from tail to head directing the air away from your dogs head. work up the body and if your dog is happy, you can up the dial to blow dry hi.

11. When the machine starts to beep you have 60 seconds left, if you need more time add a £1 coin for an extra 2 minutes, you NEED to do this before the time runs out.

12. Once you are done, remove your dog from the tub and select **DISINFECT TUB**, give the tub a quick spray round removing dirt and hair. Return the apron to the hook and please make sure you leave the bath and booth how you would like to find it.
